

# Austral Wright Metals. Australia's largest stockist & supplier of brass & copper products.

In addition to our extensive range of brass & copper rolled products, we now have in stock a wide range of brass rods, flats, angles and high conductivity copper.

Shown here are the common sizes of standard brass and copper extruded products. Copper flat bar, brass hollow bar and specialised sections are also available. We will work with you to develop unique sections for specialised applications and can source these products from quality mills throughout the world.

Austral Wright Metals have operations across Australia, with experienced technical and commercial staff dedicated to working with Australian manufacturers.
